LOCAL NOTES.

Following is the temperature and rainfall at Tombstone for the week ending Sept. 25, 1897, as reported by H. M. Gee, weather observer:
Highest average temperature... 81.7
Lowest average temperature... 62.2
Rainfall... 1.12

FOR SALE—Bees for sale. Call on F. N. Wolcott.

Another patient was admitted to the hospital today.

It is thought that the District Court will not be held till some time in December.

The Prescott high school had a fire drill the other day. The building was cleared in one minute of about one hundred scholars.

Inspector Sam King, of the Bisbee custom house, seized a bunch of thirty head of cattle at Wilcox recently, which had been smuggled across the line near Bisbee.

Don't You Ever Spit and Smoke Your Life Away.
To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

There is considerable mining activity about Cochise county, and some promising mines are developing in a producers. Cochise is the banner mining county of the Territory.

Globe is fearful that the military telegraph line from Fort Thomas to San Carlos is to be abandoned. The only reason given for the change is that teams traveling the highway break down telegraph poles and wires.

Hundreds of thousands have been induced to try Chamberlain's Cough Remedy, by reading what it has done for others, and having tested its merits for themselves are today its warmest friends. For sale by all dealers in Bisbee and Tombstone.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair.

ONE OF THE HEIRS.

Tombstoner Prospective Heir to a Fortune.

Chas. Granville Johnson, of this city, is one of the direct heirs of an estate involving millions, the outcome of which has been a remarkable lawsuit which has occupied the attention of the courts for the past ten years and is now about to be decided for good, the court of last resort having been reached by the litigants.

The history of the case, as related to the PROSPECTOR by Mr. Johnson, is interesting. In 1831 a United States patent was granted to the father of Mr. Johnson and four partners to 320 acres of land. All the owners died, and the matter was lost sight of by the heirs until about eleven years ago, when accidentally the patent was discovered among some papers, and investigations proved that the identical ground was now in the very heart of the city of Buffalo and covered the water front of that city. The city hall and all the property of the famous main streets, including the valuable right of way of the big railroad, and property aggregating in value fabulous figures, were on the patented ground. Suit was instituted and carried from court to court, the railroads and city stubbornly fighting same for eleven years, until now it is before the Court of Appeals, the highest tribunal. The case was made stronger and stronger for the heirs, each court deciding in their favor, and the fact that a proposition for settlement on a basis of \$5,000,000 was submitted and refused less than a year since would indicate that the heirs are sure of winning their case. Senator Daniels, Levi P. Morton and other famous lawyers are contesting the case for the heirs and is not improbable that we are likely to have a multi-millionaire in our midst in the near future.

Two Lives Saved.
Mrs. Phoebe Thomas of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which there are samples that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Tombstone and Bisbee drug stores. Regular size 50c and \$1.00.

The dynamite explosions, which occurred in the copper mines recently near Globe, have been traced to a number of discharged employees.

The Jerome Copper company has been incorporated. It will develop and operate the Wingham group of claims which adjoin the United Verde.

A large number of Macons from Tombstone will be in attendance at the grand lodge at Bisbee on November 10th and the meeting promises to eclipse any grand lodge session of any order ever held in the territory.

The Commonwealth company at Pearce filed an instrument for record today cancelling their mortgage debt of \$300,000 which was issued to the Commonwealth Title and Trust Co. of Philadelphia.

Constable Tom Vaughn brought over a prisoner today who is supposed to be insane and is constantly planning to commit suicide. The prisoner was placed in the hospital temporarily and will be treated in that institution before being examined as to his sanity.

The work of rebuilding the wall in the rear of F. N. Wolcott's store is progressing. It was found that under part of the wall no foundation whatever was laid which together with water drainage allowed the wall to settle.

Dr. Cool, informs the PROSPECTOR, that owing to pressing engagements here he is compelled to postpone his visit to Bisbee for several days. The Doctor is a skilled dentist and his numerous Tombstone patients speak highly of his ability and thorough workmanship.

It now appears to be a decided fact that the long talked of game of ball between the Bisbee and Ft. Huachuca clubs for the \$100 purse offered by Tombstone will be played on the 24th inst. Over 100 people from Bisbee are expected over and fully as many outside visitors will be on hand.

A NOTED MEXICAN MINE.

It Has Been Sold to an English Company.

The Mulatas mine, one of the most noted gold properties of Sonora, located seventy miles southeast of Hermosillo, has been sold to English capitalists for \$1,000,000 gold. The property has been worked by rude methods for a century or more, the free gold ores being carried out in baskets on the backs of peons and reduced by the crudest means. The new company is to put in new reduction works and is to open up the mine according to the most approved mining methods. This will be a difficult task, as the ore has heretofore been quarried out, leaving great chambers, many of which have caved in. The mine has been inspected by Colorado experts, who are unanimous in their opinion that it can be made one of the greatest bullion producers of the continent.

BUCKLIN'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions and positively cures Piles, or no payment required. It is guaranteed to give perfect satisfaction or money refunded. Price 50 cents per box. For sale at Tombstone Drug Store.

Prosper Bordonie, of Phoenix has received a letter from a friend named McMillan at Johannesburg, South Africa. He writes that M. E. Hurley, formerly of Phoenix, is there running a saloon and restaurant and forging rapidly to the front.

The Globe Silver Belt thus pays its respects to Postoffice Inspector Waterbury: "One of the most contemptible skunks in the secret service of the post office department."

Skimmed milk is now turned into champagne by an electric process, and the beverage is clear, heady and delicious in flavor, though non-alcoholic. It is said that 20,000,000 quarts of skimmed milk are thrown away daily in the United States.

United States Attorney Ellinwood, the last remaining Democratic officeholder in Arizona, has telegraphed the President asking that his resignation, filed some months ago, be immediately acted upon. Ellinwood's four years expired last month.

Up in Alaska, on the trail to Dawson, the early snows have transformed the horse from a beast of burden and a companion for man to a plain, simple article of diet. Animals that were selling for several hundred shokels of the realm are now worth but a tenth of the sum, and that only if in good condition. Verily, there are ups and downs in the horse business.

"For three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely." For sale by all dealers in Tombstone and Bisbee.

TALE-BEARERS.

A Fitting Rebuke to Those Given to Slander.

The following was handed in with request that it be published:

Ed. PROSPECTOR:—False witness, deliberate perjury, is the crown and consummation of the liar's progress. But what a word. Lie! Careless, damaging statements, thrown hither and thither in conversation, reckless exaggeration and romancing, has records of character left to be published after we are dead; heedless disregard of the supreme duty and value of truth in all things; these are what we should bear in mind, when we are told we are not to hear false witness against our neighbor.

A lady who had been in the habit of spreading slanderous reports once confessed her faults to a good and wise man of her acquaintance, and asked how she could cure it. He said: "Go to the nearest market-place, buy a chicken just kill it, pluck its feathers all the way as you return, and come back to me." She was much surprised, but did as she was bid. When she saw her adviser again he said: "Now go back and bring me all the feathers you have scattered." "But that is impossible," she said. "I cast away the feathers carelessly; the wind carried them away. How can I recover them?" "That," he said, "is exactly like your words of slander. They have been scattered about in every direction; you cannot recall them. Go and slander no more." As a rule the person, man or woman, who will deliberately slander will hear closest watching. THREE VALUABLE BOOKS GIVEN AWAY.

"Art and Fancy Work," "Nursery Rhymes," "Home Dyeing."

Mrs. Nella Daggett, editor of The Home, has published a new edition of her popular book, "Fancy Work and Art Decorations," that gives practical instructions for making dollies, table covers, scarfs, tray cloths, pin cushions, etc., etc., with fifty illustrations. This book, together with "Nursery Rhymes" (a 16-page pamphlet with a handsome colored cover design of the Old Woman Who Lived in a Shoe), and "Successful Home Dyeing," will be sent free to any reader of the PROSPECTOR who forwards the following coupon to Wells, Richardson & Co., Burlington, Vt.:

COUPON.

This entitles any reader of the PROSPECTOR to one copy of "Fancy Work and Art Decorations," "Nursery Rhymes" and "Successful Home Dyeing."

The above liberal offer is made to advertise the old reliable Diamond Dyes, and to get their book upon home dyeing into the hands of women who want to dress well by making their old clothing look like new.

Diamond Dyes have special dyes for cotton, different from those that are used for wool, and are the only package dyes on the market that can be relied upon to give colors that will not fade or crack. The fact that Diamond Dyes have been the standard home dyes for nearly twenty years and that their sale increases from year to year, is proof positive that they have never had an equal.
